Robotics Final Project Deliverables

Due Monday May 31st 2021

The three deliverables for your Final Robotics Project are:

(1) A link to a short movie of a demo of your project, starting with the title and list of team members (max 60 seconds).

(2) A technical report describing your project (max 4 pages), typically consisting of:
- Title of your project.
- All the names of the authors, i.e., your team members.
- Abstract.
- Intro, novelty, related work (if any), design, implementation, etc., results, conclusions, discussion, references.
- Please add at least 2 screenshots of your project in action.

(3) A link to a zip file containing all the project related code, designs, etc. and a ReadMe-file with clear instructions on how to use/employ it.
